## **DETAILED ACTION**

### ***Claim Objections***

Claim 44 objected to because of the following informalities: Claim 44, which is dependent on claim 41, is drawn to a decoupling circuit while claim 41 is drawn to a circuit board. Should claim 44 be dependent on claim 42? Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 35, 36, 39 and 52 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 35 recites the limitation "the conductive coating" in lines 1 and 3. There is insufficient antecedent basis for this limitation in the claim.

With regards to claims 36, examiner is unsure what element applicant is referring to with the limitation "the arrangement of the two or more element of the circuit board". Examiner is also unsure which receiver loop applicant is referring to in line 3 of the claim.

Claim 39 recites the limitation "the external field" in line 3. There is insufficient antecedent basis for this limitation in the claim. Examiner suggests removing the word "external" in order to provide antecedent basis.

Claim 52 recites the limitation "the conductor" in lines 2. There is insufficient antecedent basis for these limitations in the claim.

***Terminal Disclaimer***

The terminal disclaimer filed on 7/28/05 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent 6,717,485 has been reviewed and is accepted. The terminal disclaimer has been recorded.

***Allowable Subject Matter***

Claims 25-34, 37, 38, 40-49, 51, and 53-62 are allowed.
